Msword: Base Price List

Rev 01/01/10

**Pricing Notes:**

“**Base Cost**”, for custom Saddles does not include the price of stirrups or other optional features, and services which may be shown on our web site or any photos, unless so designated. “**Standard Features**” are listed on the **Order Forms** (first page) for features included in the Base Price, for saddle sizes available, and dimensions. Our Order Forms are designed, for your convenience, to create your own custom saddle. Please check your order carefully.

“**Added Cost**” Items is the amount added, to the Base Cost listed, for **Full & Wide** optional **tree widths** (\$+100) and for “Short” Systems lengths (\$+200), and/or any combination thereof.

If you have a special request or need, see the block on the order form for a place to request your need, if not already listed as an option.

**Fitting Notes:**

For **short-backed horses and all “gaited” horses**, see the system 6 (persons over 200#) and 8XS (persons under 200#) short flexible-skirt systems. You can use a short system with any size (back length) horse.

For **full-shouldered or “mutton”-withered horses**, choose the “Full” tree.

For **very wide or draft horses**, choose the Wide tree and the Comfort Bars option (to reduce the wide spread feel).

For **gaited horses**, choose the short systems, & the Flex-Fit Yoke rigging option.

For a **Colt** not fully developed, or a non-level back, choose “Colt shims” to compensate.

For **additional fitting information**, see the alphabetically listed “**Breed Fit Recommendations**”, on our web site. Many popular Cross Breeds are listed also.

Deliver times vary from 6 weeks, out of season, to 12-14 weeks, in season.

We will be happy to assist you, by telephone, at (870) 226-2301, Mon.-Fri., 8:00 a.m.-4:00 p.m., CST

**“Signature” Saddles**

These exclusive designs of nationally recognized Clinician/Trainers “**Signature**” saddles are available through the clinician, any dealer, or the factory. Some prices include free features (see order form 1<sup>st</sup> page). Please call the factory for technical questions.
